

SAFETY POLICY

Safety Policy for Civil Interior & Exterior Projects

1. **PPE:** Workers must wear appropriate protective gear (helmets, gloves, boots, etc.).
2. **Training:** All workers must be trained on safety protocols and emergency procedures.
3. **Fall Protection:** Use scaffolding, ladders, or harnesses for tasks at heights.
4. **Electrical Safety:** Ensure proper wiring, tool inspections, and avoid exposed wires.
5. **Tool Handling:** Ensure safe use and regular inspection of tools and machinery.
6. **Weather Conditions:** Avoid working in extreme weather; adjust work plans accordingly.
7. **Hazardous Materials:** Handle, store, and dispose of chemicals and materials safely.
8. **Site Maintenance:** Keep walkways clear and store materials properly to prevent accidents.
9. **Emergency Plans:** Establish clear procedures for accidents, injuries, and fire safety.
10. **Regular Inspections:** Conduct regular safety checks to identify and fix hazards.
